

## Product Info

Date: 12/12 - 2006	Product info.: 11-2006	Written by: Fredrik Delås
Item: Charge point MBL	Delivery: From this date	

The charge point on MBL's electrical functions for the Netti program has been moved FROM the control box which is mounted under the chair TO the back of the hand control. This is done to make the charge procedure easier for those who handle the product.
